

Missions Update

From bulletin: October 17, 2021

**MISSIONS FOCUS: L L, International Linguistics Center, USA, Asia
(supporting parents and their children)**

Our Missionaries, their health and ministries affected by Covid-19

From Annual Missions report:

Over the last six months, L has been providing educational support to families working with groups of people in Asia who do not yet have the Bible. The children in these families are called Third-Culture Kids (TCKs) as they are growing up in cultures different than that of their own countries. L has been teaching English online to a middle school student who has no other means to learn English. These daily classes are preparing the student for international school that is taught in English. With another teacher, L hosts bi-monthly preschooler story times online that help TCKs (in Asia and America) stay connected emotionally, socially and academically. Along with other teachers, L has been praying regularly for these families who are working around the world.

From today's bulletin:

A note was sent to BACBC during the Spring:

"Thank you so much for your ongoing prayers and monthly financial gifts for my ministry in support of Bible translation to the people groups who don't yet have the Bible. On behalf of the parents and children that I teach, thank you for your partnership. Serving together, L."

*Thank you for reading about and praying for our
missionaries, countries and people locally and
globally!*
