

MISSIONS FOCUS

From bulletin: September 18, 2022

Our Missionaries, their health and ministries affected by Covid-19

Missio Dei Oakland, (MDO Bay Area and Beyond)

From today's bulletin / Missions Report from Missions Team

Pastor Alex Schweng's organization now has 10 church planters on staff to serve the urban poor. While they do holistic ministry, their main passion and mission continue to be "Go Make Disciples".

Besides their work in the Bay Area, they now have multiple staff in Los Angeles. The staff includes a young couple in Compton who serve primarily black and Hispanic youth and another church planter who serves the formerly incarcerated throughout LA. These new planters are gifted and grew up in the neighborhoods they are serving so their reach and connection are quicker and more sustainable.

Pastor Alex is encouraged to have these excellent workers on board but they often have a really hard time raising support because of their underprivileged networks. Pastor Alex is thankful for BACBC's love and support!

Thank you for reading about and praying for our missionaries, countries and people locally and globally!
