Our Missionaries, their health and ministries affected by Covid-19

Pardini Update Showers of Blessing Evangelistic Ministry

From today's bulletin / Missions Report from Missions Team

Dr. David Pardini (ABWE International) Dr. Dave Pardini has become the Pastor of Discipleship at Crossview Community Church in Kennewick, WA. It is a part-time position of about 5 hours per week. He helps the lead pastor prepare his sermon each week and also teaches classes and preaches once every other month. He also works with people individually to help them grow in their faith and commitment to Christ.

Showers of Blessing Evangelistic Ministry USA held their 24th Anniversary Vision Sharing and Fundraising Banquet in October with over 400 attending. They continue to invest in broadcasting programs and distribute them across multiple radio and television time slots. Additionally, they are growing across multiple social platforms. You can watch and support their SOBEM USA YouTube Channel. They produce various gospel-driven short films with the goal of appealing to Christians, those not yet Christ followers, and the younger generation. Concern for the next generation has led them to hire a new young staff member to develop a NEW English gospel ministry [AsiAM] releasing relevant content to young audiences including asiam.org website, Facebook, Instagram and other social media. They welcome our help and recommendations. Pray for them as they project a deficit for the end of the year. Each donation is appreciated regardless of size.

Showers Of Blessing Evangelistic Ministry USA

Dear Pastors and Friends of SOBEM,

Thank you all for your love and support! Our team at Showers of Blessing USA would like to wish you all good health and peace in the Lord.

As a way to thank you, we are sending you our beautifully printed 2023 calendar. The calendar includes both Chinese and Western dates, with each month containing unique pictures, scriptures, and prayers to encourage you every day and a reminder to share the gospel and reach the unreached. If you would like to send the calendar to family, friends, or to distribute it at church, please contact our SOBEM USA office.

On October 16th, we held our exciting 24th Anniversary Vision Sharing and Fundraising Banquet with over 400 people in attendance. The keynote speaker, Mr. Ken Yeung, shared his valuable experience in establishing Prince of Peace Enterprises, Showers of Blessing USA, and other ministries over the years. He broke barriers in the commercial market with innovation and now entrusts these businesses and ministries to the next generation. His story inspires us to take on this evangelistic mission.

As we look back at the past two years, from the outbreak of COVID-19 to the political polarizing in society, the Russian-Ukrainian war, the turmoil of global politics and economy, many people have been disappointed, desperate, and loss of hope, trying to find answers. We believe that it is only Christ's redemptive Gospel that holds the real answer, and the best medicine for the world's problem. As believers, we must remain vigilant and ask God to give us faith and strength to share the gospel.

Showers of Blessing is working to partner with believers across various churches to bring the Gospel to every corner. This year, SOBEM USA will continue to invest in broadcasting programs we produced, and distribute them across multiple radio and television time slots (please refer to the Broadcasting TV Channels and Time List). Knowing that these broadcasts are well-received, we pray that God will continue to use these real-life gospel stories to lead more unbelievers to know and accept the life-changing power of the gospel. Additionally, SOBEM USA continues to grow across multiple social platforms. We highly encourage you to watch and support SOBEM USA on our YouTube channel. Our goal is to reach more than 2,000 subscribers by the end of this year. We produce various gospel-driven short films with the goal of appealing to Christians, non-Christians, specially the younger generation.

On the other hand, many parents of believers are concerned about the faith of their children, especially the next generation who speak English. Seeing this need, SOBEM USA hired Crystal, a co-worker who specializes in the development of the English gospel ministry branch [As I Am]. This sister releases content relevant to young

audiences on platforms including the asiam.org website, Facebook, Instagram, and other social media. We welcome your help and recommendations to further enhance this outreach effort.

We commit to follow the Great Commission with churches and believers to spread the gospel to different parts of the world, and across every corner of the globe until the end of days. But we need your prayers and financial support. Financially, our donation income this year was \$350,000 up to October. The expenditure projection by the end of the year will be \$660,000. We need \$310,000 in donation income to balance this year's expenses. Knowing that you care about and support our Showers of Blessing ministry, we cherish every donation, big or small. We believe in God's abundant supply, so we have been boldly developing this ministry. We hope everyone can invest in this ministry, especially for the next generation. We firmly believe that despite the economic challenges, investing in spreading the Gospel is urgent and worthwhile. Let us turn to God for guidance and inspiration together, and may the showers of God's blessing be sprinkled on this arid land.

May God bless you,

SOBEM USA Board Chairman Thomas Fong, with the Board of Directors and the Staff team

(Sobem USA) We renovated the office to a filming studio this year, and we added the recording and editing equipment for the future production. Also, we planned to visit more places in the US for filming, and more and more sharing stories will be up on the platforms for the audience.
