MISSIONS FOCUS

Our Missionaries, their health and ministries affected by Covid-19

Becoming What God Intended Ministries (BWGI US, World)

From today's bulletin / Missions Report from Missions Team

From today's bulletin:

With the eruption of COVID around the world, Dr. David Eckman and team quickly found themselves on the Internet doing distance education. All their courses were recorded and translated to Mandarin, Cantonese, and English. They have also taken the opportunity to improve how they deliver their courses. Their BC101 Foundations of the Spiritual Life course launched this past June in their new BWGI Portal and Learning Management System. New elements include Global Cohort Groups where attendees will meet with their classmates from around the world, "Part B" videos which will dig deeper into the 12 chapters, and interactive exercises which will help attendees to check their understanding.

Their Head to Heart Discipleship program has changed lives and had a great impact in Asia. BWGI Ministries believes God is opening doors of opportunity for them in Australia. Your prayers are appreciated as they seek to expand their ministry for God's kingdom.

*Thank you for reading about and praying for our missionaries, countries
and people locally and globally!*
