

MISSIONS FOCUS

Our Missionaries, their health and ministries affected by Covid-19

Matthew Hayashida Servant Partners, Southern California

From today's bulletin / Missions Report from Missions Team

Servant Partners – Matt Hayashida serves with Servant Partners' Mobilization team to disciple and equip the next generation of urban missionaries. He is also a staff member at Hope Community Church in East Los Angeles where he works in the youth ministry. Matt took 14 youth on a retreat and one girl decided to give her life to Christ. Others left the retreat with a deeper sense of ownership of their faith. His team launched a 2-day version of the Community Transformation Certificate (CTC) Program. There were 12 online participants from the US, Canada, France, and North Africa. Through this program, participants learned how to engage in community development with a Gospel-centered lens.

Matt has planned a youth basketball league as a summer outreach event. He is hoping that 80 youth will participate. Pray that the youth and their families will have a hunger for God!

Matt is scheduled to give us a report in February 2024.

*Thank you for reading about and praying for our missionaries, countries
and people locally and globally!*
