

MISSIONS FOCUS

Our Missionaries, their health and ministries affected by Covid-19

Joyful noise Xpress (jnX) Outreach and training through Worship Ministry, USA & Asian Countries

From today's bulletin / Missions Report from Missions Team

Led by Pastor Anthony Chan, the jnX team served at the "Trust is the Answer" worship meeting in March. Their sharing of personal struggles, experiences, and journeys regarding coming to fully trusting God deeply touched and encouraged those in attendance. One attendee said, "It makes me ponder my relationship with Christ". That was answered prayer - that those who came would be challenged to deepen their walk with God. In April and May, the jnX team led worship at two revival meetings in Sacramento and Mountain View organized by the Bay Area Short Term Mission Training Center (BASTM). The goal was to prepare the hearts and minds of believers to fulfill the Great Commission.

Pray for wisdom as we continue to identify the unique issues of each church community where we could serve and for the anointing of our worship ministers as they serve in different parts of the world.

Excerpts from jnX annual letter at the beginning of this year:

As I write this letter, only 4 words fill my mind: "Thank God" and "Thank you." Yet these 4 words still can't fully express my joy and excitement for what we have experienced.

I cannot thank God enough for his faithfulness; and likewise, for each of our supporters like you, for your ongoing support. We are encouraged to continue walking in faith and by faith.

When God confirmed to us that the theme for 2023 would be related to "faith/trust," we expected something would happen this year that would take our ministry to another level on our spiritual journey. Instead, the test and lesson for our faith started at the end of 2022.

Our annual meeting was in March. Thank you, once again, for your generous support and your partnership for His Kingdom.

*Thank you for reading about and praying for our missionaries, countries
and people locally and globally!*
